

Need a COVID-19 test? Get answers quickly.

As a staff member at this school, you have access to expedited medical evaluations and priority processing of COVID-19 testing through Lehigh Valley Health Network (LVHN). That means you'll receive your test results in 48 hours.* LVHN processes COVID-19 tests at HNL Lab Medicine allowing you to get answers quickly.

COVID-19 symptoms

To receive an expedited medical evaluation and priority testing, you must have at least one of the following symptoms:

- Fever (temperature ≥ 100.4)
- Cough
- Shortness of breath or trouble breathing (more trouble than usual)
- Congestion or runny nose
- Chills or repeated shaking with chills
- Fatigue
- Unexplained muscle or body aches
- Headache (beyond prior history of headaches)
- Sore throat
- Nausea or vomiting
- Diarrhea
- New loss of taste or smell

Next steps

If you think you may have COVID-19, contact your primary care provider or obtain an LVHN screening for the coronavirus online or over the phone.**

COVID-19 screening options:

- Complete an E-Visit (detailed questionnaire submitted to a provider) by going to MyLVHN.org or using the MyLVHN app.
- Call the MyLVHN Nurse Information line at 888-402-LVHN.
- Complete an LVHN Video Visit on the MyLVHN app.

During the screening a health professional will let you know if you should receive COVID-19 testing. Testing for symptomatic patients is offered at LVHN Assess and Test locations throughout the region. Find an Assess and Test close to you by visiting [LVHN.org/COVID19](https://www.lvhn.org/COVID19).

COVID-19 clearance testing

There may be times when you do not feel sick but require COVID-19 clearance. LVHN can help. Find clearance testing locations near you at [LVHN.org/COVID19](https://www.lvhn.org/COVID19).

MyLVHN mobile app

LVHN makes it convenient to view your test results. After your COVID-19 test, there's no need to wait for a provider to call you. You can view your COVID-19 test results and quarantine instructions as soon as they are available on the MyLVHN patient portal. If you receive positive test results, a nurse will contact you to provide additional guidance. Read more about MyLVHN at [LVHN.org/MyLVHN](https://www.lvhn.org/MyLVHN).

* Individual result times may vary depending on lab volumes and national COVID-19 cases.

** You must be in the state of Pennsylvania to receive screening due to medical licensing regulations.

Top Face Mask Tips

SNUG FIT!

Masks should fit snugly against your face and cover the nose and mouth.

NO VENTS!

A vent allows exhaled air (and germs) to travel into the air that others breathe.

RIGHT FABRIC!

Masks should be at least two-ply and made of a breathable fabric that is not sheer.
